

DS-MH2211 Body Worn Camera

HIKVISION Body worn camera DS-MH2211, specially designed for law enforcement officials, is a professional monitoring device to record the process of the incident and download video recording to the dock-station. This dedicated body camera provides powerful surveillance functions, such as Wi-Fi, high capturing resolution (5MP), full HD recording resolution (up to 1080P/30fps), satellite positioning service, secure data storage, etc. Body worn camera is easy to carry and integrates a replaceable battery, battery replacement requiring no switching off the device, which enables it to be a potential monitoring device for police, law enforcement, etc.

- Support H.264/ H.265 Video compression
- Built-in Wi-Fi module providing data uploading solution
- Built-in GPS module for precise positioning
- High recording definition (1080P/30fps) and high capturing definition (5MP)
- Support video & audio recording at the same time
- Wide-range angel: Horizontal 110 degrees, distortion correction
- High capacity battery (1650mAh) enables the device to work for 4 hours continuously
- Battery replacement by spare one requires no switching off the device
- IP65 Ingress protection
- Drop resistance of 2m.

Specifications

Sensor & Screen	
Type	5MP CMOS
FOV	110degrees, distortion correction
Display	2.0inch TFT LCD
Video & Audio	
Video compression	H.265/H.264
Video resolution	Maximum resolution 1920*1080. Optional: 1280*720, 720*576.
Frame rate	30fps(1080P)
Pre-&Post-recording	Pre-record: 60s. Post-record:60s
Dual stream	Support
Video format	MP4
Image resolution	5MP
Image format	JPG
Shutter	Electronic shutter
IR	Maximum up to 10m
G-Sensor	Built-in G-sensor
ICR	Automatic.
White Balance	Automatic
LED Torch	Support
Laser position	Support
Audio input	Built-in MIC, Support audio & video recording at the same time
Storage & Position & WIFI	
Capacity	32GB
Satellite position	Built-in GPS
Wi-Fi	802.11b/g/n
General	
Working condition	Temperature: -20℃~55℃. Humidity<90%.
Ingress protection	IP65
Drop resistance distance	2m
Dimension	81mm×55mm×27mm (3.19"×2.17"×1.06")
Weight	130g (0.29lb)
Button	Power on/Power off. Record. Tape. Capture. Intercom. Menu. Up. Down. OK
Data interface	Mini USB 2.0
Charge mode	Mini USB interface. Point-contact USB interface
Battery	1650mAh. Support 4 hours continuously 1080p recording.
	Removable. Support replacing battery without switching off the device
